

# PRODUCT SPECIFICATION SHEET

## Low Level Bumper Barriers - Single

Colourfast Yellow & Grey

Hi Vis Yellow & Blue

Safety Yellow & Grey

### Features and Benefits

- Low level bumper barriers manufactured from a flexible HDPE polymer with a foam diffuser, which deflects under impact without damaging
- Available in 3 sizes - 1900mm, 3400mm or 4900mm width
- Quick and easy installation - all fixings provided
- High visibility colour clearly gives safe working boundaries for MHE drivers

These low level bumper barriers offer complete warehouse protection by creating safe zones of highly visible barrier systems. They provide the right amount of visibility and strength, whilst maximising space in the warehouse.

Available as single or double bumpers, depending on the level of protection required - single barriers stand at 310mm high and double barriers at 600mm high.

The barriers are available in a range of striking colours, making them highly visible to personnel, which acts as a deterrent before an impact occurs.

Fully recyclable, non-toxic and fade resistant. Suitable for use in food production facilities and freezer environments.
